

Have You Met Us?

Electronic Interconnect has been a leader in Printed Circuit Boards for over 20 years. EI's products are manufactured in the U.S.A. under ISO 9001:2008 standards.

Since 1985, EI has worked with some of the industry's leading equipment manufacturers to develop a facility capable of producing more than 1000 complex panels a day. The management team of EI is committed to investing in new equipment and facility improvements. We are continuously implementing automation in our manufacturing environment.

Services provided by EI:

Quality Assurance

- Cross Section Analysis with Digital Images
- Finish Surface Measurement
- Solderability Analysis
