

Patel Named Technical Director of SMTA Great Lakes Chapter

Friday, August 28, 2009 | Electronic Interconnect Technology Inc.

Pratish Patel, President and CEO of Electronic Interconnect Technology Inc., has recently been appointed Technical Director of the Great Lakes Chapter of the Surface Mount Technology Association (SMTA). In his new position, Patel will direct the 140-member chapter's technical programs. The volunteer officers and leaders of SMTA local chapters and affiliates plan the majority of association events, serving regional networks of industry professionals.

Patel founded Electronic Interconnect Technology Inc. (EI), a professional PCB designer and manufacturer in 1985. EI serves design engineers and contract assemblers, providing all types of PCBs from single-sided to complex multi-layer boards and SMT boards from prototype through production.

About the SMTA

The SMTA membership is an international network of professionals who build skills, share practical experience and develop solutions in electronic assembly technologies, including microsystems, emerging technologies and related business operations. Chapters are located throughout the United States and the world. For more information, visit www.smta.org.

About Electronic Interconnect Technology

Electronic Interconnect Technology Inc. (EI) is a professional PCB manufacturer located in the Chicago, Illinois area, and a manufacturer of PCBs in the U.S. since 1985.
