

Terms of Service:

Electronic Interconnect (EI) Technology reserves the right to subcontract any product or process in order to meet delivery, design, and/or capacity requirements. Orders received without product requirements or part drawings are subject to Electronic Interconnect (EI) Technology's standard shop tolerances by default. Pricing is estimated based on known flow down requirements received with RFQ. When large raw material purchases are required to fulfill an order, a percentage of the sales order may be required in advance to secure the order.

*Limited Liability: Electronic Interconnect (EI) Technology is responsible for the value of the service it provides and not the value of the part/panel. In the event a part is incorrectly processed and/or damaged, Electronic Interconnect (EI) Technology will credit only the value of the laser service performed. To help reduce loss of product during process development and setup, it is recommended that some setup parts/panels be included in the order. If return shipments require insurance, please specify on purchase order or shipping documents. If same day turn is required, product must be received via FedEx First Overnight (8:30am).

**Export Policy: As an ITAR registered subcontractor, Electronic Interconnect (EI) Technology has implemented an export control policy and export compliance program to ensure full compliance with all export control regulations administered by the U.S. Department of Commerce, the U.S. Department of State, and other U.S. regulatory agencies. If a request for quote (RFQ) or purchase order is for an ITAR controlled commodity or data set, a completed End User Certificate is required. End User Certificate form and instructions are available upon request.
